## ENLISTMENT TO GUARD COMING IN VERY SLOW

At present 65 members have joined this cavalry troop while the government requires at war strength to be not less than 70 and as the government examination has not yet been taken and as this examination is very rigid, it is thought by those who are in a position to know, that there will be a number of those who have already joined and passed the local examination who will be eliminated at the time that the U. S. government test is given.

It is urged that Cache county should supply 100 men and that being the case it is quite important that others signify their willingness to join the troop before it becomes necessary for the governor to exercise his rights in drafting men into service by force. J. Z. Stewart has just returned from a trip in Lander, Elko and Humboldt counties in the state of Nevada, where he went to examine a large tract of land which has been offered for sale by the Southern Pacific Railroad Company, situated in those counties, but what interested him mostly is the fact that he found thousands of acres of good farm land with water in easy reach, which is unoccupied and open for entry by the homesteading.

This land is within easy reach of two railroads, the Southern and the Western Pacific and it is only a matter of time when this land will be yielding abundant harvests, owing to the quality of the land and its proximity to the railroads.

## GENERAL BELL SENDS OUT MOTORCYCLE SQUADRON TO HEAD OFF ENEMY

El Paso, Texas, June 22.—A large force of Mexican cavalry was observed by scouts approaching the Rio Grande at Valverde, seven miles below here, just before midnight. Gen. Bell, Jr., immediately ordered out his armed motorcycle squadron to prevent the Mexicans from crossing.

The trains which pulled out of Juarez this morning have pulled back to within eight miles of the Mexican border town. General Bell admits that he is perplexed by this move, but is ready for any emergency.

All communication by telegraph between Juarez and points south stopped shortly after 9 p. m. Mexican Consul Andreas Garcia said that the wires had been cut about twenty miles below here. The Mexican official insinuated that scouts from the United States army are responsible for the severing of communication.

Both the state department and military officials deny that there is any truth in the report that General Trevino is sending the American prisoners taken at Carrizal back to the American territory via El Paso.
